URRACO 75
MOBILE SHREDDING
STOPS FOR NOTHING.
ONLY LINDNER CLIENTS CAN TRULY SAY:

WINS HANDS DOWN.

1. ROBUST TWIN-SHAFT CUTTING SYSTEM
   Incredibly productive thanks to aggressive intake and synchronously running shafts.
   Maximum resistance with our fully welded crushers, rippers, scrapers and breaker bars.
   Adapts perfectly to the material thanks to shaft pairs available in different designs.

2. POWERFUL DIESEL ENGINE
   Efficient shredding with our 375 hp diesel engine from Scania.
   Complies with all exhaust gas regulations thanks to our state-of-the-art SCR system.
   Particularly long service life ensured by an ideal interaction between the engine and the hydraulics.

3. PROVEN MOBILE HYDRAULICS
   High throughput thanks to the self-regulating hydrostatic drive.
   Effective shredding even of difficult materials with a torque of up to 240,000 Nm.
   Safe operation ensured by the instant detection of non-shreddables.

4. EASY-TO-USE CONTROL
   Simple operation and parameter-setting thanks to the intuitive touchscreen user interface.
   Convenient shredder operation from the wheel loader with our customisable remote control.
   Easy manoeuvring of tracked machines thanks to the joystick remote control.

5. WELL-ENGINEERED FEED AND DISCHARGE SYSTEMS
   Consistent output with our smart double tilting hopper system.
   Low dust emissions due to the hydraulic height-adjustable conveyor belt, which can even be adjusted during operation.
   Ferrous metal separation with optional integrated over-belt magnet.

6. MADE-TO-MEASURE CHASSIS
   Easy transport and lowering of the machine with standard hook-lift trucks (U75D).
   Easy placing on the ground with wheel axle and drawbar.
   Full mobility on-site thanks to tracked chassis (U75DK).

GIVES YOU ALL THE ADVANTAGES OF MOBILE SHREDDING WHILE BEING EXTREMELY COMPACT:

Robustly engineered and equipped with a powerful engine, the Lindner Urraco 75 shreds even difficult materials. Depending on the degree of mobility needed, the machine is available in two chassis versions: either with a wheel axle and tow bar, suitable for hook-lift transport and easy placing on the ground, or with a heavy tracked chassis for full mobility on site. Enjoy powerful shredding in an extremely compact form.
